## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**-Please cancel claims 19-59**

#### ***Election/Restrictions***

Claims 19-59 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 27 June 2005.

This application is in condition for allowance except for the presence of claims 19-59 drawn to an invention non-elected without traverse. Accordingly, claims 19-59 have been cancelled.

#### ***Allowable Subject Matter***

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor render obvious a method for detecting particles in liquid samples whereby a piezoelectric device is brought into contact with a liquid sample such that particles bind to the piezoelectric device, connecting the device to a balanced

comparator, providing a cancellation signal, detecting transient signals from the output of the balanced circuitry, in combination with all other limitations of the independent method claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The examiner has cited references deemed relevant to the general state of the art of the present invention.
